H. W. STEGER,
Manager GAZETTE.

Marshal Dana seems to be doing his duty without fear or favor.

The council very promptly corrected the mistake in accepting an ordinance at the last meeting.

The SUNDAY GAZETTE is proving very valuable as an advertising medium. Its long list of special articles ... the best published in the state.

We publish elsewhere an ordinance relating to additions to the city which was passed in the council last night. It is rather long and seems to be well intended though it is pretty difficult to tell what is meant by the language used.

In our local columns will be found an account of a runaway at the Huerfano street crossing. A train was switching on the crossing and frightened the horses. It was a wonder that two persons were not seriously maimed or killed. The city ought to take immediate action in this matter. The crossing is now absolutely dangerous. The city will be equally responsible with the railroad unless it insists on proper safeguards.

The selection of General Bela M. Hughes of Denver as the representative from this state on the democratic national congressional committee will not be pleasing to the Patterson Thomas wing of the party in this state. General Hughes is a follower of the old school of democracy represented by such men as Jackson, and is a warm admirer of President Cleveland, though he is not a supporter of his tariff policy.

There has never been an effort to enforce the liquor ordinances when public sentiment was so unanimously with the prosecution. The city officers should keep up the good work. But there should be no more compromises, except so far as it is necessary to treat all the druggists alike in the first cases brought. Those who will not live up to the present ordinance should be deprived of their permits and punished to the full extent of the law.

The democratic majority of the house committee on territories it is stated is to be seized upon to kill admission of the territories of Dakota Montana, New Mexico and Washington to statehood. The object of the democrats in this bill is to offset the republican gain of Dakota. It is nothing more than an attempt to adjust republican and democratic strength, as the strength of the free and the slave states was adjusted nearly forty years ago.

The Philadelphia Press is strongly in favor of high license. It has the following to say concerning the license and local option bill agreed upon by the republican members of the New Jersey legislature:

The republicans in the New Jersey legislature appear to have agreed upon a praiseworthy license and local option bill for that state. It proposes a graded license for liquor selling, $50 in districts of $100 in towns of 5000 inhabitants or less, in places of more than 5000 and less than 10,000 inhabitants, and $200 in cities exceeding 10,000 inhabitants. There is also a local option provision, which requires one tenth of the voters in a county to petition for the submission to the people whether licenses shall be granted in the county. The work of the Legislature. Below fifty cents for a license and the provision allowing local option elections every year. A fee of $200 for cities, county, be called high. It is and in the state ... in such a place as Jersey City ... with local option elections ... every year would ... to stay the effect ... adopted. But if the ... amended in these particulars ... ranking as the best ... pass it ...
